Comments from the Chair

Greetings Fellow Missouri Psychologists-

With the aim of maximizing your precious time, this column has two goals. I will provide a brief overview of some of the main topics covered in this edition of the State Committee of Psychologists (SCOP) newsletter and highlight a few major developments pertaining to licensure of psychologists in the state.

Glenn Good, Chair

In this Newsletter

- ♦ *Welcome to New Licensees.* Please join SCOP in welcoming our newly licensed and provisionally-licensed colleagues to the profession (see pages 11-14).

- ♦ *Psychology Licensure and Income Tax Accountability.* Psychologists are among all licensed professions in Missouri whose licenses were revoked or suspended for either failure to file or pay state income taxes (see pages 3 and 6).

- ♦ *Complaints and Renewals.* Complaints filed against Missouri psychologists have decreased, and the overall number of licensure renewals has held steady (see page 5).

Other Important Updates

- ♦ *No Fee Increases!* Due to on-going cost control and reduction efforts, psychology licensure renewal fees have not increased.

- ♦ *Inactive Status.* Missouri psychologists will now have the option to place their license on inactive status when they are not engaging in the practice of psychology in Missouri. The inactive option starts with the 2006-2008 application renewal cycle. This is a major improvement for psychologists who opt not to practice psychology in Missouri for extended periods and want the option to return to practice at a later time.

- ♦ *Free Continuing Education Workshops!* SCOP will offer three free Ethics/Risk Management CE workshops in the Kansas City, Springfield, and St. Louis areas during the first half of 2005. More information on specific dates will be forthcoming.

- ♦ *Continuing Education Refinements.* CE rule requirements are being revised slightly to clarify Category A and B criteria with an update forthcoming. Missouri psychologists still need to obtain 15 Category A and 25 Category B CE hours (40 hours total) every two years.

Important Information Related to HB600 & HB978

House Bill 600 (2003) and House Bill 978 (2004) were enacted to increase the tax revenue collected by the State of Missouri. There are several "income tax accountability" provisions requiring the Department of Revenue to take steps to collect income taxes owed by state employees and licensed professionals. As most of you know, one provision was specifically aimed at professionals licensed by the Division of Professional Registration. The language is as follows:

"324.010. All governmental entities issuing professional licenses, certificates, registrations, or permits pursuant to sections 209.319 to 209.339, RSMo, sections 214.270 to 214.516, RSMo, sections 256.010 to 256.453, RSMo, section 375.014, RSMo, sections 436.005 to 436.071, RSMo, and chapter 317, RSMo, and chapters 324 to 346, RSMo, shall provide the director of revenue with the name and Social Security number of each applicant for licensure with or licensee of such entities within one month of the date the application is filed or at least one month prior to the anticipated renewal of a licensee's license. If such licensee is delinquent on any state taxes or has failed to file state income tax returns in the last three years, the director shall then send notice to each such entity and licensee. In the case of such delinquency or failure to file, the licensee's license shall be suspended within ninety days after notice of such delinquency or failure to file, unless the director of revenue verifies that such delinquency or failure has been remedied or arrangements have been made to achieve such remedy. The director of revenue shall, within ten business days of notification to the governmental entity issuing the professional license that the delinquency has been remedied or arrangements have been made to remedy such delinquency, send written notification to the licensee that the delinquency has been remedied. Tax liability paid in protest or reasonably founded disputes with such liability shall be considered paid for the purposes of this section."

This statute requires the Department of Revenue to notify licensees, at the time of application or renewal, that they must file delinquent income tax returns or pay any delinquent taxes owed to the state. Since May of 2003, the Division of Professional Registration has been working with Revenue and the Attorney General's Office to establish procedures and define each agency's responsibilities under this new law.

As of July 2003, the effective date of the new law, the Division has been transmitting licensee data for each renewal cycle. Because of the amount of time that the Department of Revenue has needed for technical implementation of the law, their first notices did not go out to licensees until January of this year.

During the month of January, there were 12,000 licensees who received notices either to file delinquent returns or pay delinquent taxes. Licensees were given 90 days to resolve the issue or have their license disciplined as a matter of law. On July 21, 2004, the division disciplined over 800 licenses.

The law, as written, gives no discretion to either the Department of Revenue or the Division of Professional Registration. Revenue must send notices to every licensee who has no record of filing a return or paying taxes in the three years prior to renewing or applying for licensure. The Division must suspend the license of any licensee that fails to either respond that he or she does not live or work in Missouri, or resolve his or her tax delinquency. There are no appeal rights built into the law, and no right to cure the default after the 90-day period. If a licensee pays his or her taxes or files his or her return even one day after the 90-day period, the license may still be disciplined.

It is very important for you to respond promptly to any notification received from the Department of Revenue, even if you have not lived or worked in Missouri in the last three years. Failure to respond could result in disciplinary action against your license. For some health-care professionals, this means reporting the disciplinary action to the federal health care databases - which may affect his/her ability to practice anywhere in the United States.

Licenses Revoked Due to HB600

During the 2003 legislative session, House Bill 600 passed, which contained provisions regarding the payment of state income taxes as a condition of continued licensure or registration in your profession with the state of Missouri (see section 324.010, RSMo). Notices were mailed in January 2004 from the Missouri Department of Revenue to licensees whose license or registration was subject to renewal who had no record of filing state income tax returns or paying taxes owed. These notices informed licensees of the legislation and stated the tax obligation, and gave licensees 90 days to file and/or pay their taxes, make satisfactory arrangements for payment of the balance due with the Department of Revenue, or show that they had no obligation to file tax returns or pay taxes in Missouri. The following licenses were Revoked on July 21, 2004 due to non-compliance.

NEWS BULLETIN FROM MISSOURI DISABILITY DETERMINATION

The Social Security Administration is going paperless and so is Missouri's Disability Determinations.

Starting in January, please be sure and check the return address and fax number on each request we send you...some will be different from others.

Also, some request letters will have a bar code. If you get a request letter with a bar code on it, please put that sheet on top of the medical records you mail or fax back to us.

Finally, please consider saving time and money and fax your responses to us.

The above items are important. While some records will be stored on paper in folders for our decisions, other records will go directly into the electronic data base, which is why they will need the bar code cover sheet. Records that we store electronically will get there by either being faxed direct into the data base or by being scanned at a Hipaa compliant scanning company.

For more information, please contact your local DDS Professional Relations Officer. You can find their addresses at: <http://home.earthlink.net/~modisability/mopros/>

What is the Certificate of Professional Qualification in Psychology (CPQ)?

ASPPB's CPQ program is designed to facilitate mobility for licensed doctoral psychologists.

ASPPB issues a Certificate of Professional Qualification in Psychology (CPQ) to psychologists licensed in the U.S. and Canada who meet standards of educational preparation, supervised experience, and examination performance, and who have practiced a minimum of five years and have no history of disciplinary action.

ASPPB then encourages licensing boards to accept the CPQ as evidence of eligibility for licensure. Through the CPQ program, ASPPB works to improve the process for licensing psychologists already licensed in one jurisdiction and ease the burden on psychology licensing boards faced with regulating an increasingly mobile profession.

A key feature of the CPQ program is its credentials bank, which provides a way for psychologists to store evidence of their professional education, experience, prior licensure, and exam performance, regardless of whether they are granted a CPQ. Once archived, this information can be accessed and submitted to any psychology licensing board, thereby reducing potential hassles associated with documenting compliance with licensure criteria, particularly long after one's training and initial licensure. It is important to note that the CPQ does not constitute a license to practice. It is a mechanism to facilitate the granting of a license to practice in a second or subsequent jurisdiction. Once a psychology board agrees to recognize the CPQ, it has agreed to accept CPQ holders' educational preparation, supervised experience, and examination performance for licensure. A jurisdiction may require a CPQ holder to pass local requirements such as a jurisprudence exam (e.g. local mental health law), training on abuse reporting, or a personal interview.

Because a few jurisdictions limit licensure to psychologists trained as health service providers in psychology, a non-health service provider psychologist could obtain the CPQ yet not be eligible for licensure in some jurisdictions. ASPPB is working with all U.S. and Canadian psychology boards to encourage widespread adoption. As more jurisdictions move to accept the CPQ, its value in facilitating mobility will increase. And even if one relocates in a jurisdiction that does not accept the CPQ, a credentials record with ASPPB will facilitate mobility by maintaining an easily accessible record of qualifications.

To request application materials, send an e-mail containing your name and postal address to cpq@asppb.org. To access a list of states and provinces that accept CPQ go to www.asppb.org/mobility/CPQmap.htm
